Re: **Business Reference Letter**

To Whom it Might Concern:

IngeniQue Corp. is project development and investment holding, focusing on large scale transport and tourism infrastructure.

One of our divisions is an innovative IoT company, utilizing four environments - Development, Stage, UAT and Production on many servers with load-balancing and HA.

AltScale has assisted us with the implementation of our cloud based infrastructure on Google Cloud.

We strongly recommend Altscale managed cloud support team to any company that wants to have industry standard, scalable and highly available infrastructure. Their team is always there for the client, and willing to go the extra mile.

If you have any additional questions or need clarification, please feel free to contact me.
